

*Swiss Cytometry Society  
Autumn Meeting 2011, November 4<sup>th</sup>  
in Aarau*

## *The presidents Invitation*

Geneva, October 21<sup>th</sup>, 2011

Dear Members,

This years Annual General Assembly and Autumn Meeting is soon coming up – I cordially invite you to join us on November 4<sup>th</sup> at the Kantonsspital in Aarau.

The theme for this meetings plenary lecture, held by Dr. Ingmar Heijnen from the Institute of Medical Immunology of the University Hospital Basel, reflects our multidisciplinary interest in clinical cytometry. His talk entitled “Flow cytometry and antibody deficiency” will surely spark the interest of both haematologists and immunologists.

To follow up on this years exciting Spring Meeting, focused on detection of minimal residual disease, we will discuss the send-outs from the External Quality Assessment Trials.

The detailed programme is enclosed. The minutes of last years general assembly will be distributed by email as attachment.

We are looking forward to meeting many of you again and hope to welcome some new audience, anticipating fruitful and interesting discussions.

A handwritten signature in blue ink, appearing to read 'T. Matthes', with a stylized flourish at the end.

Thomas Matthes,  
President of the SCS

## *Venue* *Haus 3, Kantonsspital Aarau AG*

The Kantonsspital Aarau can be easily reached walking 5 minutes from the train station Aarau.

Signs will be posted starting in the train station passage underground. Exit passage underground following the small yellow signs on the walls "Wegweiserstandort Mittelland" and take an immediate left once you get out. Follow Bleichmattstrasse until you get to the Migros Klubschule. Cross the Herzogstrasse and enter Kummelerweg, follow signs to Haus 3. The meeting room is on the ground floor.

Parking space is limited and expensive, but nearby – see map.
